Interactive History & Heritage Bus Tours

CBI'S LEADERS UNDER 40 GET ON THE BUS IN MAY 2011

Do you want to know more about Charlotte's Center City, Westside and Eastside?
Do you wonder how key decisions have influenced the city's growth & development?
How race & ethnicity have played a role in these decisions?
How these decisions are impacting our present and our future?

Join **Community Building Initiative** and tour guides Tom Hanchett, *Levine Museum of the New South* historian, & John Howard, *City of Charlotte Neighborhood Development*, as they shed light on these questions, explore "what's in the ground" and bring the history of Charlotte to life.

Tours will provide a window into African American history in Charlotte as well as the new immigrant experience. The tour will include conversations with other participants and an opportunity to consider how YOU can get involved in current community issues.
